GENELEC®

Quick setup guide

8030A

Speaker placement

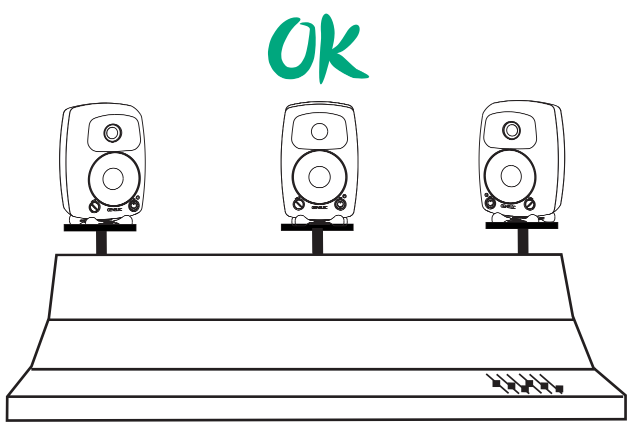

Do not place the monitors near reflective surfaces or behind objects!

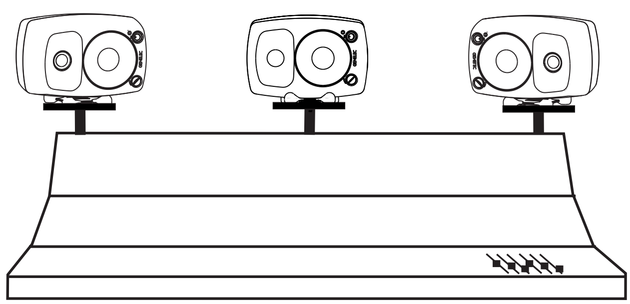

Speaker orientation

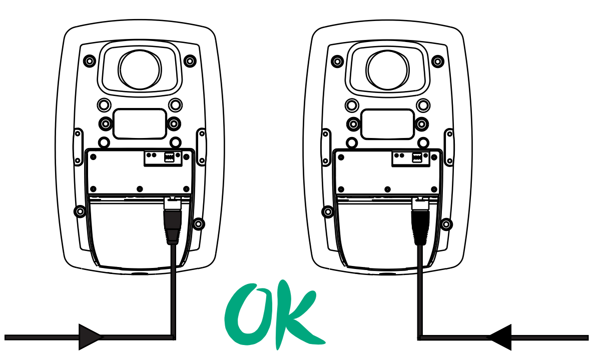

Vertical placement is preferable

Horizontal placement might disturb midrange imaging and accentuate early reflections from the mixing desk causing high frequency colouration!

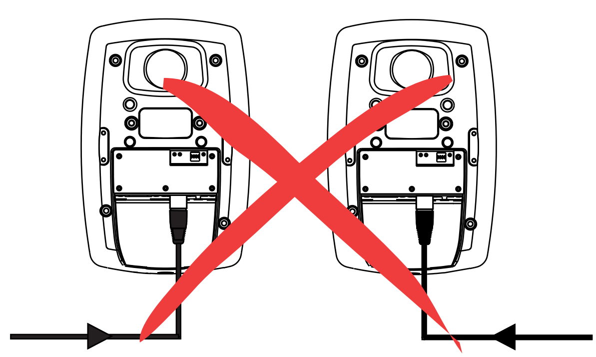

Connecting the 8030A

XLR male to "INPUT" connector

XLR male to "INPUT" connector

XLR female to "OUTPUT" connector

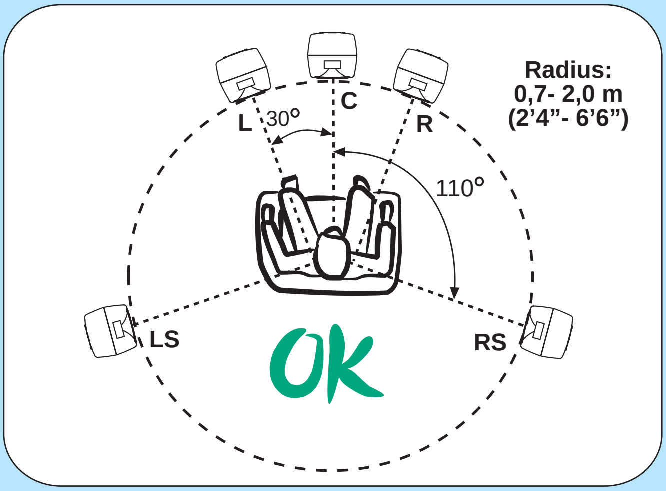

XLR female to "OUTPUT" connector
